

Concord Hour

On the 6th of February, Concord Public School participated in Concord Hour from 12.00-1.00pm

Concord Hour is when the whole school switches off all sources of electricity, including air-conditioning units, fans and electronic devices. Our school began Concord Hour to emulate what Earth hour tries to achieve, just on a slightly smaller scale. We aim to unite our school as one community in order to help protect the planet.

During Concord Hour, Students participated in a range of fun activities. Some of these activities included, reading as a class, Chinese New Year art, learning how to do expanded notation in maths as well as music lessons in the hall.
