

2L & 4/5V

2L and 4/5V have been working together on Growth Mindset. We have been brainstorming about the Learning Dip and how we can have a Growth Mindset. During this term, we have designed posters using our ideas about the learning dip.

The Learning Dip is a place where you fall in when you think that you can't do something. You need to think positively to get out of the dip.

These are some of the posters we designed.
